Income-Based Tuition Arrangements

Living Stones Academy offers a sliding scale tuition rate to eligible families. Eligibility is determined by household size and the use of the Federal Income Guidelines (FIG). Families requesting a sliding scale tuition rate will be required to provide appropriate documentation. The monetary figures in the following chart represent annual household adjusted gross incomes (AGI) and corresponding minimum tuition requirements. Preschool rates listed are per *family*, not per child, with the exception of incomes over 200 percent of the FIG.

Household Size	Percent of Federal Income Guidelines (FIG)				
	≤100%	≤140%	≤180%	≤200%	>200%

For example, a family of 3 with a preschool student and household adjusted gross income (AGI) of \$22,000 as reported on 2017 Federal Tax Returns would fall between 100% and 140% of the FIG. Tuition required would be 6% of the household's AGI or \$1,320 for the year.
